

NDA Urges President Trump to Pursue Aggressive Economic Agenda

Following his inauguration last week, NDA [sent a letter](#) to President Donald Trump which provides an overview of the demolition industry and outlines key policies his administration should pursue in the coming year. NDA urged President Trump to partner with the demolition industry on legislation and regulatory actions that will strengthen the U.S. economy and help create new jobs for hardworking Americans.

Specifically, NDA called on the president to focus his attention on the following priorities:

- Renew critical tax incentives for small businesses
- Reform workforce development programs and apprenticeship rules
- Support and expedite implementation of federal infrastructure projects
- Pursue regulatory relief to unleash the American economy
- Consider the economic impact of tariffs on businesses and supply chains

NDA will continue to reach out to the White House and key Trump administration officials in the coming weeks to advocate for the demolition industry's policy priorities.

NDA Releases 2025 National Policy Agenda

This week, NDA released its 2025 National Policy Agenda. This agenda, crafted by a committee of your demolition peers, is a vital resource for policymakers and Members of Congress as they address the nation's most pressing challenges. It represents 11 different policy areas. This agenda is not just a document; it is a roadmap for our industry's future. Our strength lies in our membership of more than 500 demolition companies who represent the interests, concerns, and needs of the demolition industry. Our collective voice achieves a greater impact at a lower cost than if each demolition professional acted alone.
