

NDA Participates in Coalition Roundtable on 2025 Tax Policy

This week, NDA participated in a business coalition roundtable with representatives of other associations to discuss the future of tax policy following next week's general election and pending tax legislation that will be under consideration in 2025. Participants received legislative updates from congressional staff and tax policy experts and discussed important legislation that will impact businesses in 2025. Several provisions from the Tax Cuts and Jobs Act will be expiring at the end of 2025 and NDA will be heavily engaged with Congress and the White House next year to renew tax provisions that are critical to the demolition industry.

DOT Announces \$635 million for Bridge Infrastructure Projects

Yesterday, the U.S. Department of Transportation (DOT) announced \$635 million for 22 small and medium-sized bridge projects in both rural and urban areas under the Bipartisan Infrastructure Law. The projects will build, replace and repair bridges in twenty-one states across the country. A list of projects can be [found here](#).
